ÖKONOMISK REVUE

(Economical Review of Norway)

issued each wednesday, price per the year $ 6.

The Review contains reports from the exchange, table of new emissions, general meetings of shareholders, shipwrecks and brief report about all sharequoted papers on the stock exchange. Leading articles dealing with norwegian commerce, banking, insurance etc. etc. The Review can be subscribed at all post offices, and from the publishers, **A/S Ökonomisk Literatur, Kristiania.**

The financial papers, the men of finance and the scientists mentioned below make among others the following statements with regard to the book Exchange Rates of the World 1914—1921.

"The Economist", London, No. 4137, 9/12 1922:

This is volume one of a remarkably interesting publication. The author announces his intention to give a summary of exchange rates in all the more important countries of the world from January 1, 1914, to December 31, 1921, and in the present volume before us the first part of his task has been accomplished. Volume one includes the daily rates during the above-mentioned period for London, Paris, Berlin, Amsterdam, and other Continental cities. These daily rates, for a period so unique in political and economic changes, are of considerable importance, and it is to be hoped that the publishers will experience a wide demand for such a truly valuable work of reference. The publication is mostly in English, and bankers and others who have not their own charts of exchange movements will be well advised to obtain a copy. Volumes two and three will follow shortly.

"The Statist", London, No. 2340, 30/12 1922:

This book forms a valuable and much-needed work of reference.

"The Financial News", London, No. 11752, 12/12 1922:

Under the title „Exchange Rates of the World", Mr. Emil Diesen, editor of the Christiania „Economic Review", has compiled a record of exchange rates from January 1, 1914, to December 31, 1921. The first volume gives the rates at ten of the European exchange centres, including London, Berlin, Paris, Zurich and Amsterdam, and for all the more important currencies the record is the average from day to day; for less important currencies the average monthly. A very complete comparison of fluctuations and values is thus afforded. The work, to be issued in three volumes, and comprising a tabulation of daily rates at forty-seven world centres, is intended for reference by bankers, brokers, insurance companies, and business men generally. It is proposed to issue annually a new edition giving the daily quotations for the preceding twelve months.

"The Financial Times", London, 15/12 1922:

A day-to-day record over eight years.

With the object of supplying an oft-felt want of business men and students of exchanges, Mr. Emil Diesen, editor of Okonomisk Revue, of Christiania, has undertaken the task of compiling a record of exchange movements in the chief centres during the eight years 1914—1921. It is intended to supplement this work by an annual publication on somewhat similar lines, but including financial comments, in the future.

The first of the three volumes covering the initial period includes, so far as possible, daily rates in Amsterdam, Berlin, Christiania, Copenhagen, Helsingfors, London, Paris, Riga, Stockholm and Zurich, together with tables of the highest and lowest rates for each quarter. The second and third parts are expected to be ready about the end of this month. Naturally there are many unavoidable variations and blanks so far as the war years are concerned, but in the case of London there are never fewer than nineteen currencies qouted, while for 1921 the number rises to thirty-eight.

The work should prove exceedingly useful to a wide public as a reference book.

"The Stock Exchange Gazette", London, No. 1147, 21/12 1922:

Re Vol. I. Such a record will form a very useful reference book for bankers, brokers, insurance companies, stock exchanges, statistical offices and students. The book undoubtedly forms a valuable record, and the subsequent volumes will be welcomed.

Re Vol. II. There is no other single volume which attempts to give a fractional part of the records which are compiled in these pages. The chief aim of the editor has been to provide a work of reference for practical business men as well as for scientists, and there is no doubt that he has succeeded in performing a valuable service in this direction.

Anglo Norwegian Trade Journal, London, No. 97, 8/1 1923:

Questions constantly arise as to rates of exchange which ruled at past dates. Frequently the information is not available and progress of business is consequently delayed. Mr. Emil Diessen, Editor of Oekonomisk Revue (Christiania), having received many enquiries as to past rates and having suffered inconvenience owing to absence of readily available data, intends to publish annually a reference book—entitled „Exchange Rates of the World" — giving the daily rates quoted in the most important cities and monthly rates for some smaller places. The first issue is to be in three parts, No. I of which has been recently published by A/S Økonomisk Literatur, Christiania. It records the quotations in Amsterdam, Berlin, Christiania, Copenhagen, Helsingfors, London, Paris, Riga, Stockholm and Zurich from January, 1914, to December, 1921. Parts II. and III. will cover other towns for the same period. The tables, which are compiled from official statements, quotations of exchanges and government banks, and private records, schould prove of practical value to bankers, brokers, insurance offices, merchants, economists and statisticians.

"The Manchester Guardian Commercial", Manchester, 14/12 1922:

The editor of our Norwegian contemporary the „Okonomisk Revue" has in this publication compiled a summary of exchange rates quoted in all the more important countries of the world from January 1, 1914, until December 31, 1921. For the leading markets daily rates are given, for others monthly.

It would be hard to discover a work of reference more valu able to economic writers. Bankers, brokers, and all interested in international trade also will find in these volumes an immediate answer to many questions which often take some time to elucidate.

"The Wall Street Journal", New-York, No. 9, 11/1 1923:

In this three-volume work, of which the first volume has been released, is a tabulation of daily rates of exchange quoted in 47 of the world's principal cities on the important financial centers from January 1, 1914 to December 31, 1921.

It completely supplies the need for a reference book for those who wish access to foreign exchange statistics, and at the same time gives in permanent form interesting and valuable historical data for a period unique in financial annals. The first volume is valuable enough to New-York bankers, but as Vol. II will contain rates quoted on the local market, its appearance will be looked for with added interest.

Chicago Journal of Commerce, Chicago:

Two volumes of this reference work are off the presses with one more to come. As a gulde to the past fluctuations of exchange rates throughout the world they are invaluable. It is a book for the library of the banker, foreign exchange broker or dealer and the business firm doing an internationale business. It is a record of the wildest upheaval of international currency values the world has seen, and possibly the worst it ever will see. The price of the books

is ℳ 2.80 a volume or ℳ 7 for the three. The period covered in the daily record of exchange quotations is January 1, 1914, to December 31, 1921. In Vol. 1 are covered Amsterdam, Berlin, Christiania, Copenhagen, Helsingfors, London, Paris, Riga, Stockholm, Zurich. Vol. 2 presents rates at Alexandria, Athens, Bangkok, Batavia, Belgrade, Brussels, Bucharest, Budapest, Hongkong, Madrid, Montreal, New York, Prague, Shanghai, Singapore, Sofia, Vienna and Warsaw. The renaining leading cities will be presented in Vol. 3. — W. L. A.

Nieuwe Rotterdamsche Courant, Rotterdam, No. 27, 28/1, 1923:

De A/S Okonomisk Literatur to Kristiania zond ons reeds geruimen tijd geleden een door Emil Diesen samengestelde opgaaf van de wisselkoersen der wereld gedurende het tijdsverloop 1 Januari 1914 tot 31. December 1921, waarin dus do periode van den oorlog en de drie jaren na den wapenstilstand, die zich door zulke merkwaardige schommelingen op het gebied der valuta's heeft gekenmerkt, is vastgelegd.

Het is een moeizame arbeid, dien de heer Diesen zich getroost heeft voor de samenstelling van dit eerste deel met zijn dagelijksche notities, zijn hoogste en laagste koersen voor elke maand en zijn graphische voorstellingen van het verloop van de koersen te Amsterdam, Berlijn, Helsingfors, Londen, Parijs, Kristiania, Kopenhagen, Riga, Stockholm en Zürich. In de twee volgende deelen, waaraan nu nog gewerkt wordt, neemt de samensteller de andere financieele centra onder handen. Wij hebben het boekje reeds verschillende malen geraadpleegd, o. a. ten aanzien van het merkwaardige koersverloop van den dollar en het gemak van een dergelijke nauwkeurig bijgehouden wisselkoersstatistiek op prijs leeren stellen.

De Nieuwe Finanzier en Kapitalist, Haag, No. 6807, 3/8 1923:

Emil Diesen, Exchange Rates of the World. Vol. II.

Met genoegen voldoen wij aan het verzoek de uitgave aan te kondigen van het tweede deel van Emil Diesen's Exchange Rates of the World. Dit deel bevat de dagelijksche wisselkoersen gedurende de periode van 1 Januari 1914—31 December 1921 van de navolgende plaatsen: Alexandrië, Athene, Bangkok, Batavia, Belgrado, Brussel, Boekarest, Boedapest, Hongkong, Madrid, Montreal, New-York, Praag, Shanghai, Singapore, Sofia, Weenen en Warschau. Men begrijpt, dat een dergelijke samenstelling een geweldigen arbeid kost van vlijt, geduld en nauwkeurigheid. Vooral dit laatste is natuurlijk voor de gebruikers van het werk van de grootste beteekenis. Blijkens zijn voorbericht heeft de samensteller daar dan ook de grootste aandacht aan besteed en het is niet de minste lof, dien men aan dit werk moet geven, dat het een vertrouwenswaardige tabel is. De steekproeven, die wij hebben genomen, hadden alle een perfect resultaat. Het boek is bovendien zeer fraai en duidelijk uitgevoerd en grafische voorstellingen vergemakkelijken het den lezer zich een beeld te scheppen van den grilligen loop der wisselkoersen in den behandelnde moeilijke periode.

Resumeerende kan men gerust zeggen, dat deze uitgave voor ieder onmisbaar is, die met wisselkoersen als studie-object of bedrijfsfactor heeft te maken.

"La Journée", Bruxelles, 6/12 1922:

L'interérêt de cet ouvrage n'échappera pas à nos banquiers auxquels il sera d'un secours considérable dans le maniement des traites internationales, et le calcul en général des valeurs internationales.

"Revue Economique internationale," Bruxelles, 25/11 1922, Vol. IV, No. 2:

L'Okonomisk Revue est une intéressante publication norvégienne, hebdomadaire, faite avec soin. Son éditeur a eu l'idée de

reconstituer jour par jour les changes du monde entier de janvier 1914 au 31 décembre 1921. Le premier volume de ce travail de patience comprend les changes d'Amterdam, Berlin, Christiania, Copenhague, Helsingfors, Londres, Paris, Riga, Stockholm, Zurich. Le volume II, à paraître, ceux de New-York, Rome, Vienne, Lisbonne, Bruxelles, Madrid, Pétrograd, Prague, Buenos-Ayres. Le relevé quotidien est accompagné de diagrammes généraux et de moyennes trimestrielles bien dressées.

Ceux qui auront à traiter de l'histoire des changes pendant cette importante période de crise y trouveront des matériaux trè précieux.

The Financial Times, Montreal, 10/2 1923:

One of the most interesting and instructive economic table preparations which have come to hand in a long time has been received from Emil Diesen of the Økonomisk Revue, Christiania, Norway. The table is entitled „Exchange Rates of the World", Vol. 1 january 1. 1914 to december 31. 1921. The work is a monumental one, giving as it does a summary of exchange rates in all the more important countries of the world. It affords a concrete and accurate record of exchange movements for which there has long been a vacant place in the financial and economic libraries of Bankers and busines men.

The Journal of Commerce, Melbourne, No. 871 27/6, 1923:

This volume, which has been compiled by Mr. Emil Diesen, the Editor of the „Okonomisk Review", of Christiania, Norway, gives the daily rates of exchange from January 1, 1914, to December 31, 1921, obtaining in Amsterdam, Berlin, Christiania, Copenhagen, Helsingfors, London, Paris, Riga, Stockholm and Zurich, and is, we understand, to be followed by other volumes dealing with other European, American, South American and Eastern centres. The author writes us, inter alia:— „The book is intended to be a reference book for bankers, brokers, insurance companies, tradesmen, stock exchanges, statistical offices and men of science. I know from personal experience how often the absence of such a compilation has hampered my statistical and financial work." Mr. Diesen has done his work admirably, and the book, which is in English, is invaluable for the purposes for which it is intended. It is thumb indexed, and the rate for any day in any of the eight years at each of the centres can be instantly ascertained. The section devoted to London covers 67 pages, and in addition to the daily rates on twenty-five foreign centres, the maximum and minimum rates each quarter in each of the several years are given.

Wileman's Brazilian Review, 55/57 Rua Camerino, **Rio de Janeiro.**

Exchange Rates of the World, Vol. 1, by Emil Diesen, Editor of the „Okonomisk Reveu", of Christiania, Norway. The most valuable reference book for bankers, brokers, insurance companies, tradesmen, stock exchanges, statistical offices, etc., that we have received.

This valuable book gives a summary of exchange rates in all the more important countries of the world from Jan. 1, 1914 to 31 December, 1921.

We know, as Mr. Diesen likewise says, from personal experience how often the absence of such a compilation has hampered statistical and financial work, and this publication undoubtedly fills this deficiency.

This book will appear in future as an annual publication for international exchange rates, accompanied by financial comments. The first issue will consist of three volumes. Vol. I includes the daily rates for cities: Amsterdam, Berlin (Hamburg), Christiania, Copen-

hagen, Helsingfors, London, Paris, Riga, Stockholm and Zurich. Vol II, the rates for New York, Rome, Vienna, Lisbon, Brussels, Madrid, Petrograd, Prague and Buenos Aires. Vol. III, Alexandria, Athens, Bangkok, Batavia, (Soerabaya), Belgrade, Bombay, Budapest, Bucharest, Calcutta, Cape Town, Constantinople, Hongkong, Montevideo, Montreal, Reval, Reykjavik, Rio de Janeiro, Shanghai, Singapore, Sofia, Valparaiso, Warsaw and Yokohama.

English has been adopted as the principal language.

The difficulties encountered in compiling such monumental statistics of exhanges must have been enormous, as we, statistical compilers ourselves, can well appreciate, and Mr. Emil Diesen must be congratulated on his gerat and successful work.

Giornale degli Economisti, Rome, e rivista di statistica.

Raccolta diligentissima di notizie sul corso dei cambi negli otto anni 1914—21. In questo primo volume sono contenuti i dati sui cambi delle piazze di Amsterdam, Berlino, Cristiania, Copenhagen, Helsingfors, Londra, Parigi, Riga, Stoccolma e Zurigo.

Per ciascuna piazza sono indicati i corsi dei cambi sulle principali piazze in relazione con essa (p. es. per Londra i cambi su Parigi, Amsterdam, Italia, Madrid, Lisbona, Svizzera, Cristiania, Stoccolma, Copenhagen, Pietrogrado, Alessandria, Bombay, Calcutta, Madras, Hong Kong, Yokohama, Shanghai, Singapore, New York, Montreal, Rio de Janeiro, Buenos Aires, Valparaiso, Montevideo, Lima). Sono indicate anzitutto le parità; poi sono indicati i massimi ed i minimi livelli toccati dai cambi, trimestre per trimestre dal 1914 al 1920, e mese per mese nel 1921; infine sono date le quotazioni giornaliere. Quest'ultima parte è piu ricca delle precedenti; p. es. per la piazza di Londra vi troviamo anche i cambi su Bruxelles, Atene, Berlino, Vienna, Budapest, Praga, Varsavia, Bucarest, Constantinopoli, Belgrado, Sofia, Manila, Messico, almeno per il periodo successivo alla guerra, perchè nel periodo bellico molte di queste quotazioni furono sospese.

La raccolta del Diesen costituisce una fonte di prim'ordine per quanti si accingano a studiare le visende dei cambi negli scorsi anni. E da augurare che venga presto completata col secondo e terzo volume, che conterranno i dati medi mensili per altre piazze non comprese nel primo. L'Autore si propone di tenere al corrente con supplementi annuali il suo paziente lavoro, e questa iniziativa merita piena approvazione e cordiale incoraggiamento.

Qualche verifica fatta a caso fa presumere esatte le notize raccolte dal Diesen. Anche tipograficamente il libro si presenta benissimo: i caratteri sono minuti ma molto nitidi e facilmente leggibili.

The financial paper "Åffärswärlden", Stockholm, 42, 18/10 1922:

The editor of the Norwegian financial review „Økonomisk Revue", mr. Emil Diesen, well known as publisher of "Manuals of Norwegian Industry and Trades" which is unique in its manner, has surprised us with a new work, which witnessess on almost superhuman energy.

It is worthy of all appreciation that the initiative for the edition of such a voluminous reference book came from such a little country as Norway.

The financial paper "Svensk Finanstidning", Stockholm, No. 4, 28/10 1922:

Mr. Emil Diesen, editor of the Norwegian financial review „Økonomisk Revue", known as a writer on economics and as publisher of the reference work "Manuals of Norwegian Industry and Trades", is now distributing vol. I of a book called "Exchange Rates of the World". In this book he has realized the plan of collocating the exchange rates from January 1st 1914 to December 31st 1921 in all more important countries of the world.

The writer on economics will possibly better than any other be able to estimate such a reference book, which in future will be of great value for the study of history and economics during and after the war.

The financial paper "Finanstidende", Copenhagen, 25/10 1922:

The book contains a number of graphical tables and seems in general to be practically arranged, and will undoubtedly fill a deficiency felt by many. We give the book our best references.

The financial paper "Mercator", Helsingfors, No. 42, 20/10 1922:

"Exchange Rates of the World" is a publication, which ought to be of much importance for banks, brokers and other firms who wish to check their statements upon exchange rates during the period covered by the book.

"Journal du Commerce et de la Marine", Alexandria, No. 3892, 10/2 1923:

Il est inutile d'insister ici sur ce qu'il a fallu de méthode, de patience et de tenace énergie pour mener à bon terme une entreprise de cette envergure, qui confine au tour de force pur et simple, au dire des plus éminents écrivains de finance et d'économie qui on si louangeusement apprécié le travail de M. Emil Diesen dans la plupart des grandes publications du genre qui s'impriment en Europe et en Amérique.

Car cette vaste compilation, qui n'a pas demandé seulement un esprit de suite peu commun pour la réaliser, mais aussi — et à un dégré égal — des facultés étonnantes de calcul cambiste et de conversion monétaire, vient à son temps pour combler une lacune qui se faisait sentir vivement dans les milieux où l'on s'occupe des transactions en devises, autant dire dans tout le monde des affaires.

"A Patria", Lisbon, No. 782, 3/1 1923:

Na Scandinavia, composta de paises de moeda saneada, foi estudado com rara mestria e singular sagacidade o curso mundial das varias divisas cambiais desde 1914 a 31 de Dezembro de 1921.

Deu-se a essa ardua tarefa o sr. Emil Diesen, conhecido editor da importante revista de Cristiania "Okonomisk Rev."

O livro em questão, "Exchange Rates of the World" será de futuro uma especie de anuario das varias divisas cambiais, nas praças de todo o mundo.

O supradito volume encerra propinas expressivas, dado a curva das oscilações cambiais e tabelas das cotações diarias sobre as diversas praças, entre si, confere o enunciado já feito.

E', pois, um trabalho cheio de interesse e que permite o estudo da situação dos diversos mercados durante a guerra e depois dessa quadra calamitosa.

Bulletin Commercial et Industriel Suisse, Zurich, Nr. 7—8 15/4 1923:

L'ouvrage sera complet en trois volumes et coûtera 30 shellings ou 7 dollars, plus les frais de port; chaque volume sera vendu séparément au prix de 12 shellings environ.

Le premier volume, comprenant 324 pages, qui vient de sortir de presse, contient les cours des changes, notés au jour le jour, sur les places suivantes: Amsterdam, Berlin, Christiania, Copenhagen, Helsingfors, Londres, Paris, Riga, Stockholm, Zurich. L'ouvrage est illustré d'un graphique pour chaque pays, montrant la courbe des changes pendant les années indiquées, soit de 1914 à fin 1921, et de plus, indication très précieuse, donnant la parité de chaque monnaie étrangère comparée à celle du pays traité.

Nous ne croyons pas qu'il existe un ouvrage de référence présentant une telle valeur pour les banquiers, agents de change, compagnies d'assurances, ainsi que pour toutes les maisons ayant des

intérêts dans des pays étrangers. M. Emil Diesen, qui est un économiste distingué, éditeur de nombreux manuels sur l'industrie et le commerce de son pays, vient de lancer, avec la présente publication, un ouvrage d'une grande utilité pour l'étude de l'histoire économique et financière du monde avant, pendant et après la guerre.

„Die Kurve", Zürich, No. 1, January 1923:

Der vorliegende stattliche Band von 324 Seiten ist für jeden unentbehrlich, der sich rasch über den Kursstand in der Vergangenheit orientieren muß.

"Ligue du libre éxchange", Paris:

Cet ouvrage très complet pour chaque pays est un précieux auxiliaire pour quiconque s'occupe de la question des changes.

Dr. Thv. Åarum, professor of political economy at Christiania University, Dagbladet, Christiania, 20/11 1922:

With the help of the book it is possible to form a picture of the developments of the value of money during a period so unique in all its consequenses. The book will be of value both for the writer on economics, and for the publicist, in their preparation of statements concerning conditions in the period covered by the book, and for the business man, who in certain instances requires this information for contracts closed and business transacted during the period, such as bankers, brokers, insurance-companies, exporters and importers.

Dr. O. Jæger, professor of political economy at Christiania University, Tidens Tegn, Christiania, 22/11 1922:

The arrangement and practical disposition of the book is exemplary. ‚As a reference book the publication is in fact invaluable for all those who work with foreign exchanges. The book will surely get a large distribution in Norway, as well as in the nine other European countries for which the book contains exchange rates. Mr. Emil Diesen has in this work given a compilation, which will be of practical use all over the world and by which the students in the future will be enabled to follow the progress of economics during and following the war, and with a precision, formerly unknown.

The Manager of Christiania Bank og Kreditkasse mr. E. Sandberg, Morgenbladet, Christiania, 25/11 1922:

Based on statements secured from National Banks, exchanges, financial reviews and statistical offices all over the world, the editor of "Økonomisk Revue", mr. Emil Diesen, has in this book given us a means of ascertaining rapidly any exchange rate quoted in different countries on a given date. All those who work daily with foreign exchange rates calculations, will understand the practical value of such a reference book. It is not only of value for bankers, brokers and business men, but also for insurance companies and lawyers who need such information for contracts passed or for business transacted during the period covered by the book. It contains good statistical material and will also be of great value for students of political economy in judging of the developments in the value of money, during and after the great war.

The General Manager of Den norske Handelsbank mr. P. Volckmar, Aftenposten, Christiania, Nr. 588, 16/11 1922:

Mr. Emil Diesen has in editing this standard-work filled a deficiency, and the publication will undoubtedly be of international importance.

The book will be studied with interest, not only by professional men, but also by business men, and it ought to be extensively used as a reference book, especially in the foreign exchange departements of the banks. Besides, the book will preserve material for the study on the world of economics, for the time during the war, as well as for the time after, a period having especially great interest both for business men and for scientists.

Otherwise reviews are given in the papers:

PREFACE.

⟨GENERAL PLAN OF THE PUBLICATION.⟩

It is the purpose of this book to give a summary of exchange rates in all the more important countries of the world from January 1st 1914 until December 31st 1921. I have thought that it may be of value both for practical men and for men of science to have at hand a book containing these varying rates for a period so unique in its political and economical developments. Many inquiries have been addressed to me with regard to the rates which were prevailent at this or that place at a given date. Some need this information for contracts passed or for business transacted at the time, others for the sake of comparison or for scientific purposes.

My endeavour has been to give a reference book for bankers, brokers, insurance companies, tradesmen, stock exchanges, statistical offices and scientists. I consider this also a sure and simple method for preserving interesting material for future economic and historic research.

I know from personal experience how often the absence of such a compilation has hampered my statistical and financial work, and it is my object to fill this deficiency, which undoubtedly must have been felt by many of my colleagues as well.

The tables are derived partly from official statements, partly from the quotations of stock exchanges and Government banks of the respective countries, and partly from private records and are published without responsibility. It is not unusual that rates taken from various sources do not always give identical figures for the same date and place. It must also be remembered that the rates change hourly.

For all more important countries I give daily rates; for the others monthly. In an appendix I intend to give a summary of the highest and the lowest yearly rates for each country.

This book will appear in future as an annual publication for international exchange rates, accompanied by financial comments. As far as possible exchange rate quotations for the following cities are included:

Alexandria, Amsterdam, Athens, Bangkok, Batavia, Belgrade, Berlin ⟨Hamburg⟩, Bombay, Brussels ⟨Antwerp⟩, Bucharest, Budapest, Buenos-Aires, Calcutta, Cape Town, Christiania, Constantinople, Copenhagen, Helsingfors, Hongkong, Lima, Lisbon, London, Madras, Madrid, Manila, Melbourne, Mexico, Montevideo, Montreal, New York, Paris, Petrograd, Prague, Reval, Reykjavik, Riga, Rio de Janeiro, Rome, Shanghai, Singapore, Sofia, Stockholm, Valparaiso, Vienna, Warsaw, Yokohama, Zurich.

The first issue of this publication itself will consist of 3 volumes. Volume I includes the daily rates for the cities: Amsterdam, Berlin, Christiania, Copenhagen, Helsingfors, London, Paris, Riga, Stockholm, Zurich. Volume II will contain the rates for: Alexandria, Athens, Bangkok, Batavia, Belgrade, Brussels, Bucharest, Budapest, Hongkong, Madrid, Montreal, New York, Prague, Shanghai, Singapore, Sofia, Vienna, Warsaw; Vol. III: Bombay, Buenos Aires, Calcutta, Cape Town, Constantinople, Lima, Lisbon, Madras, Manila, Melbourne, Mexico, Montevideo, Petrograd, Reval, Reykjavik, Rio de Janeiro, Rome, Valparaiso, Yokohama.

Volume II is expected to be ready for publication about the end of the present year and Volume III at the beginning of the next year

English has been used as principal language. Only in cases where practical considerations have made it desirable has another language been used.

The difficulties in compiling the different rates have been enormous, and will be explained in volume III. My requests for assistance have been received with interest and always satisfactorily answered, and I desire to express my sincere appreciation and thanks to all of the persons who have assisted me. I shall also refer to this matter in volume III.

Christiania, November 5th. 1922.

Emil Diesen
Editor of „Ökonomisk Revue".

PREFACE TO VOLUME III.

Volume I and II of my „Exchange Rates of the World" has been exceedingly well received by the press, scientists, bankers and businessmen.

The work is a hard one, the farther away the countries, the greater are the difficulties experienced in obtaining the sources where the quotations are to be found. I had hoped to have had finished Vol. III in the year 1922, but it was quite impossible to obtain all the quotations in due time.

For the correctness of my sources I can of course take no other guaranty, than that I have tried to find the best one and that I have critically revised the materials and when I have found anything which seemed suspicious I have inquired into the matter.

Misprints are not quite to be avoided in a book containing only figures but the reader will see himself where there is a misprint I hope. The more I work with the various quotations, the more I see the intimate connection of the world's monetary movements.

The chief point of the book is to bee a book of reference as well for practical men as for scientists as I have already mentioned in the general plan of the publication.

In Vol. II and III I have in the graphical tables included the millimeternet, as this to a great extent will facilitate the reading of the respective figures.

The yearbook containing the quotations for 1922 was published August 1923. A yearbook containing the quotations for 1923 will follow in July this year.

I am expressing my best thanks to the gentlemen who have had the kindness of assisting me in the compiling and preparing of the book.

CHRISTIANIA, May 31st 1924.

Emil Diesen.

SOURCES

from which the exchange rates quoted in the below mentioned towns are taken:

Alexandria: Banks selling less one per mille brokerage taken from „The Egyptian Gazete". — **Amsterdam:** Rates in Report from the Netherlands Bank. — **Athens:** 1914—1919 monthly avarage rates quoted by „La Banque Nationale". 1920—21 Selling rates. — **Bangkok:** Selling rates from „The Bangkok Market Report". — **Batavia:** The quotations are taken from „The Batavia Market Report and Price Current". — **Belgrade:** Official average rates quoted by „The Belgrade Exchange". — **Berlin:** Average from sellers and buyers from „Der Zahlungsverkehr", Berlin. — **Bombay:** The quotations are taken from „Bombay Chamber of Commerce, Current quotations". — **Brussels:** 1914 and 1919 to January 1921 from „La Cote officielle de la Bourse de Bruxelles". February to June 1921 from „L'Etoile Belge" and „La Libre Belgique". July to December 1921 from „Cours Authentique". — **Bucharest:** The quotations are taken from „Bursa Economical & Financial weekly Review". — **Budapest:** Sight rates from „Pester Lloyd". — **Buenos-Aires:** The quotations are taken from „Boletin oficiales de la Bolsa de Commercio". — **Calcutta:** The rates are taken from „Calcutta Prices Current & Money Market Report", Calcutta. — **Cape Town:** The quotations from Standard Bank of South Africa, Ltd. — **Christiania:** Official Selling rates from „Ökonomisk Revue", Christiania. — **Constantinople:** The rates are received by „Deutsche Orientbank Aktiengesellschaft, Berlin and „The British Chamber of Commerce of Turkey and the Balkan States". — **Copenhagen:** Selling Rates from „Ökonomisk Revue", Christiania. — **Helsingfors:** Selling rates from „Mercator", Helsingfors. — **Hongkong:** Bankers Selling, T.T. from „Forthinghtly Price Current and Market Report". — **Lima:** Lstr. quotations from „Economist", London. — **Lisbon:** Cheques, Selling rates procured by the brokers Octavio & Rodrigues. — **London:** Highest quotation for each day from „The Times". — **Madrid:** Vista cheque rates from „Boletino de la Camara", Madrid. — **Manila:** The quotations are taken from „Boletin oficial de la Camara de Commercio espanola de Filipinas en Manila". — **Melbourne:** Lstr. quotations from „Economist", London. — **Mexico:** Cable rates from „Boletin Finanzeiro y Minero". — **Montevideo:** Sight and Cable rates from „Bolsa de Commercio de Montevideo". — **Montreal:** The rates for american dollar by Bank of Montreal. The english pound quotations from „Economist", London. — **New York:** The rates are taken from „The Commercial & Financial Chronicle", New York. — **Paris:** Highest quotation for each day from „Le Temps", Paris. — **Prague:** Sammenstilling av Börsennoteringer. — **Reval:** Selling Rates from the Revaler Exchange. — **Reykjavik:** The quotations are got from Islands Banki. — **Riga:** Selling rates from „The Latvian Economist", Riga. — **Rio de Janeiro:** Official sight rates by Banco Escandinavo-Brazilieiro. — **Rome:** Official average rates from „Bollettino del Ministeri per l'Agricoltura e per l'Industria e il Commercio", Rome. — **Shanghai:** The quotations are taken from „The China Express and Telegraph". — **Singapore:** The quotations from „The Straits Budget". — **Stockholm:** Sveriges Riksbanks avista selling rates. — **Valparaiso:** Pound rates from „Economist", London. — **Vienna:** Average from sellers and buyers from „Amtliches Kursblatt der Wiener Börse". — **Warsaw:** The rates are taken from Warsaw exchange quotations. — **Yokohama:** Wechsel, selling rates from „The Chamber of Commerce Journal", Yokohama. — **Zurich:** The quotations are taken from „Neue Züricher Zeitung" and „Kurszettel der Züricher Effenktenbörse".

RUSSIA.

Petrograd Exchange Rates (Checks).

Method of quoting: Ro. per 10 £, $ 1, 100 Frs., 100 Kr. (Sweden).

Parity of Exchange: £ 1 = 9.458. Ro.

1 Rouble = 100 Kopecks = 0.51456 Dollars = 2 sh 1.376 d.

We have up to now not been able to get the rates quoted in Petrograd for other years than 1916, but as soon as the sources will be accessible, the quotations shall be published in our annual yearbooks, which are a continuance of the work containing the rates for 1914 to 1921.
